#103 – 19335 96 Ave, Surrey, BC, Canada, V4N 4C4

Mettech - Control System Specialist

We are seeking a Control System Specialist to join our team in Surrey, BC.

Mettech manufactures advanced plasma thermal spray coating equipment and provides expert coating service, support and development to customers from a wide range of industries including aerospace, automotive, energy, printing, pulp & paper, mining, metals & metal processing, and semiconductor manufacturing.

Headquartered in Surrey, British Columbia, Northwest Mettech Corp. is a leader in developing thermal spray technology. Mettech is a pioneer in Axial Suspension Plasma Spray Technology with innovative engineered coating solutions.

Duties:

- Integrate and test equipment as it is built in our factory
- Work with customers in different time zones to address issues through email, chat, online, and telephone support
- Travel to customer's sites to perform installation and service work
- Assist with assembly and wiring of equipment
- Support our worldwide clients

Requirements:

- Be able to travel internationally to client site (10-20% travel)
- Knowledge of PLCs, HMI's and instrumentation
- A good hands-on aptitude
- Ability to work in a team as well as work independently
- Good communication skills

No relocation assistance or visa sponsorship will be offered.
