

Job Title: Electrical Control Systems Technician

Number of Hours per Week: 40

Mettech requires a system technician to join our team.

Mettech manufactures advanced plasma thermal spray coating equipment and provides expert coating service, support and development to customers from a wide range of industries including aerospace, automotive, energy, printing, pulp & paper, mining, and metals & metal processing. Headquartered in Surrey, British Columbia, Northwest Mettech Corp. is a leader in developing thermal spray technology. Mettech is a pioneer in Axial Suspension Plasma Spray Technology with innovative liquid injection (suspension feeders) and surface engineered coating solutions

What you will BRING

- Your experience and technician skills to assemble, test, and install automated control systems for plasma spray equipment
- Your skills to support customers both remotely and onsite
- A good hands-on aptitude
- Ability to work in a team as well as work independently
- Knowledge of PLCs, HMI and instrumentation
- Troubleshooting and problem-solving skills
- Ability to read and understand electrical schematic
- A positive mindset and sense of excitement for being in the action everyday on-site
- A proven track record of team collaboration
- Familiar with common hand and power tools
- Your desire to travel internationally
- The legal ability to work in Canada

Optional skills:

- Soldering, Brazing, AutoCAD, Solidworks

What YOU Will Do

- Work with world-leading automated thermal spray technology
- Ensure quality completion of both standard and custom projects
- Solve technical challenges in house and at customer's sites
- Jump in and experience first-hand production of thermal spray technology

- Assist the team with daily tasks, coordination and assembly
- Order processing, filling customer orders for consumables
- Support our worldwide clients through email and telephone support
- Collaborate and keep the lines of communication open when working with team members
- Embrace the learning experience and be open to taking on new challenges

What's in it for YOU?

- The Ability to make a difference and build something **extraordinary** with our team;
- The chance to work with leaders who support your development through coaching and managing opportunities
- Getting to work in a dynamic, collaborative, progressive, and high-performing team
- Opportunities to do challenging work
- Opportunities to become an expert in thermal spray technology

Note: No financial relocation assistance is available for this position.
